Note: For more information on firestop installation, refer to ASTM E3157.

1. Place plate around the pathway
2. Use any standard slotted screwdriver, 1/4" open-end or closed-end wrench, or 1/4" nut driver to tighten plate around the pathway
3. Place pathway into nominal 4 in. (102 mm) diameter opening
4. Apply pressure on plate to secure in hole

Optional Ground Attachment
Parts Included (Not to Scale) - Device not included in Cat. No. EZP133K
Uninstalling Plate/Pathway Assembly

1. While holding the pathway, loosen the screws in the plate flanges.

2. Slide pathway out of plate.

Note: For more information on firestop installation, refer to ASTM E3157.
