SpecSeal® Series FP Intumescent Firestop Plug
(Part Number: FP500D, for drain pipe penetrations)

1. Inspect area to be protected. Remove sharp edges or protruding wires or ties that can damage foam plugs.

2. Cut hole in plug approximately the same size as the drain pipe, plug may also be slit for easier installation around drain line.

3. Open the plug at the slit and place it snug around drain pipe.

4. Slide plug along drain pipe into opening. Flat surface of plug to be flush with bottom surface of floor.

Note: For more information on firestop installation, refer to ASTM E3157.
